As has been the custom for many years federate soldiers in Arlington cemetery dead. The confederates were buried in Arlington while the civil war was in progress, and their remains were never disturbed when the property was made a national cemetery. There was no service of any kind connected with the decoration of the mounds.

The fact of there being confederate dead in the cemetery is not generally known. The graves are in a remote section and go practically unnoticed. They have been dec-orated for many years past, however, and Chairman Hendricks of the decoration committee made no exception to the rule yesterday. An unfounded report gained credence in some quarters that the decoration this year was an innovation.
